## About This Game

## Congratulations.

The October labor lottery is complete. Your name was pulled.
For immediate placement, report to the Ministry of Admission at Grestin Border Checkpoint. An apartment will be provided for you and your family in East Grestin. Expect a Class- 8 dwelling.

Glory to Arstotzka

The communist state of Arstotzka has just ended a 6-year war with neighboring Kolechia and reclaimed its rightful half of the border town, Grestin.

Your job as immigration inspector is to control the flow of people entering the Arstotzkan side of Grestin from Kolechia.
Among the throngs of immigrants and visitors looking for work are hidden smugglers, spies, and terrorists.
Using only the documents provided by travelers and the Ministry of Admission's primitive inspect, search, and fingerprint systems you must decide who can enter Arstotzka and who will be turned away or arrested.

This is a great game overall with easy to learn controls as well as an interesting story. The game play can get challenging if you're not paying attention but the penalties are fair as long as you don't do something terribly wrong. The 20 different endings give it replayability, as well as some scenarios where your character can die to add to the fun.. Best Game Ever. It wonderful :3. This is an amazing and unique game I believe anyone could get enjoyment out of. My laptop without a graphics card runs the game perfectly fine. The story is amazing and comes with 20 separate endings determined by the choices you make throughout the story. This game is just very unique and fun to play. My single play-through of the story took over five hours and I believe I may return to play through several more times to get different endings. This game is a solid 10 V 10 for me.. What are you doing here read this go buy it, If you already haven't.. 10\/10 would get bombed again. Ignore the Kolechian propaganda in the negative reviews! *DENIED AND DETAINED*. my top indie game
$10 \mathrm{~V} 10<3$

I heard about the rave reviews this game had, and I was excited to try it. I also spent many years working in government, and a lot of that time was checking documents to find forgeries and mistakes. I will say the game's portrayal of document checking is fairly realistic. Unfortunately it's a little bit too realistic for me, and it just feels too much like doing work. The game gets an A+ for how accurately it recreates what government workers do when they check documents, and it deserves bonus points for convincing people document checking can be a fun game with emotional highs and lows instead of tedious, soul-crushing, drudge work. Ultimately though, I can't recommend the game, even if I can see why others might like it. I could barely stand playing this game when I was being paid money to do it, and for me it's even less fun doing a computer simulation of it for free.

And to any other government workers out there who think they might be really good at this game because they already do this all day and every day at work, don't get this game. There are better things you could be doing with your precious free time. You know this. Go do that instead.. GG but a little too obscure without a guide.. Cobrastan isn't a real country. One of the best games I've ever played, hands down. So simple yet so fun.. Arstotzka so great, review not required
