About This Game

Bimonia is one of the last Birdlings alive on this earth. The Birdlings see humans as sworn enemies, and Bimonia has been taught to kill on sight.

One day, Bimonia meets Tayo, a human child hunting in the forest. Bimonia fails to kill Tayo, and they instead become friends. Mother will be furious if she finds out, or worse, this relationship may cause tension between the two species to erupt.

The Last Birdling explores Bimonia and Tayo's fight for their friendship as the world threatens to tear them apart.

Unhack, the first game created under the InvertMouse name, was produced in 2012. That means *The Last Birdling* happens to be my fifth anniversary project. This game is a culmination of all the lessons I have learned through the past five years. Now, I would like to share with you several features available in *The Last Birdling*:

Dual perspectives:

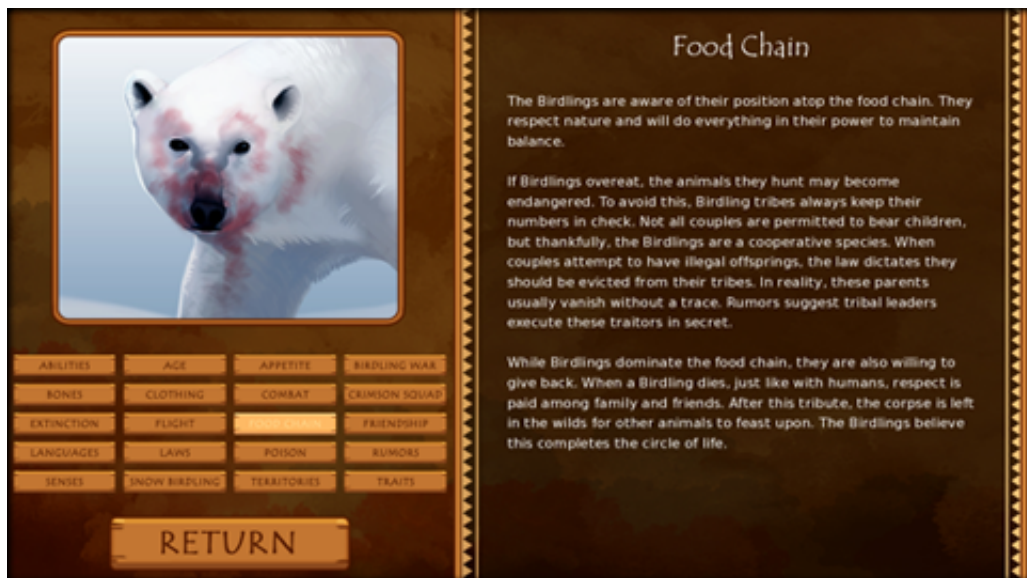

The Last Birdling alternates between Bimonnia and Tayo's perspectives. Follow their journeys from childhood to adolescence as they struggle to maintain their friendship against all odds.

Multiple endings:

There are 21 decisions to make throughout Bimonia and Tayo's journeys. Depending on their resolve, this story will conclude in one of five ways. Use the progress tracker to determine how to obtain every ending.

Glossary:

Dive into *The Last Birdling's* lore through the glossary page. Throughout your journey, you will find links that take you to relevant entries.

Thank you! I hope you will find the experience worthwhile.

better than csgo. This is the greatest rhythm game on PC I've ever played since DJMax Trilogy. Hats off!. Try It out! It's fun!. It has a very good arcade feeling, great maps, an abundance of cars and a perfect soundtrack

Though I do feel like it is not perfectly balanced and optimised content-wise

Overall a 8/10. This is a highly entertaining little soccer game, and a fantastic 4-player couch co-option for a group of friends. The controls can feel a tad wonky and delayed at times, but it's not a significant detractor from what is, overall, supposed to be very light hearted and a bit ridiculous. You can usually pick this up in a bundle or heavily discounted from its already low price of \$5, and I strongly suggest you do.. An absolutely incredible start to one of my favorite webseries. Frequently laugh-out-loud hilarious, but also thoughtful with its characters, it will absolutely keep you invested.. I really want to give this game a positive review because it's one of the very few halloween themed games in existence. It has a lot of potential and it looks really cool but there are a lot of things that need to be fixed. First of all some of the enemies take too many hits to kill and when they come up to you and attack you go flying up in the air and they just circle around you so you just have to aim down and spam until they're all dead which is pretty annoying, It would be good if there was a difficulty setting to help with that if there's no other way of changing how the enemies attack. The enemies projectiles go through walls and hit you almost every time which is a load of crap. Also the mouse moment feels really weird and slow, and you can't look directly up so it's hard to hit the flying enemies when they're above you. As well as that when you shoot if you're moving in a direction the bullets swerve whichever way you're moving which is dumb, the aiming is off aswell and most of the time you can't hit the enemies, maybe its the hitboxes or something but it's very annoying. The gun doesn't sound very good and that could be improved. The maze game mode isn't very fair cause you don't start out with a weapon so you can't kill anything. The arena mode is really difficult aswell. Overall it looks really cool but there's a LOT that needs fixing/improving. Sadly it feels like this game was made by a child so I doubt this will have any major improvement at all ever.. Very unresponsive game, lots of menu glitches, some fly glitches, but I have the world record of beating this game.

I beat it in 15:90 seconds.

. My first dark souls game

- great lore
- good music
- amazing lvl design
- non linear progression with a classless skill system allowing you to do what you want
- no microtransactions
- no lootboxes
- endless replayability
- tons of weapons and armor types with accompanying characteristics
- no tabtarget, autoattacking or chance based action = all skill
- Great pve experiance and non-cumbersome pvp based on invasions

quite simple one of the best games i ever played lol, and i have played ALOT of games, get or it dont, just know that you are missing out on something truely special, i bought dark souls 3 on the back of this and im going to get dark souls 1 remastered soon, thanks fromsoft! LIAR AHEAD! HURRAH FOR RECKLESSNESS!

Hmm... In my opinion, it is worth the price. (Must buy when being a sale.)

That is true it has just about 5-6 hours story, but great game and graphic compared to it is published in 2006.

Absolutely fully scripted game, but the shooting system and AI is good, the enemies throw back the grenade, take cover or attacking us directly.

Lots of scene (eg. port, office, streets, storehouse, cave, jungle, ship) when you can fight. You can use bullet-time. It is very spectacular. :)

I just recommend.

PS. Just a tip: Save often. :P. you can jump from a plane without a parachute

5V5 would become a pancake again. Awesome game, if you love battleships or a navel history buff this game is definitely for you, you can have classic battles like HMS Hood vs Bismarck, just awesome to reenact the great sea battles of ww11. An awesome little party game, great fun with friends!. Locs feel really cheap.
